Hi there! I'm someone who likes to have fun while getting things done. I enjoy working with my team and seeing them succeed, because that's how we all win. I've spent over 10 years in the testing space, including 4+ years in management, building QA teams, processes, and automation strategies from the ground up. My experience covers manual and automated testing across mobile and web, with a strong track record of delivery, leadership, and hands-on work with different frameworks.

Experience

APRIL 2024 - CURRENT

QA Manager / Rebtel, Stockholm

- Built QA strategies and processes from scratch, including AI-driven testing initiatives.
- Scaled Rebtel's test coverage from 300 to over 2,000 test cases.
- Implemented a test user management tool used across the whole company.
- Managed a team of 6 QA engineers, both remote and in-house, providing clear goals, structure, and support.
- Arranged workshops around start using Claude Code and QA Yearly Planning.
- Set up QA infrastructure using WebdriverIO, BrowserStack, TypeScript, and Cypress.
- Planned the QA roadmap for test case creation and automation across web and mobile apps.

JUNE 2021 - APRIL 2024

Senior QA Engineer → **QA Manager** / Plotly, Vancouver

Promoted to QA Manager within 3 months after rapidly establishing Plotly's QA foundation across process, tooling, automation, and quality standards.

- Built and scaled QA strategies and processes from scratch.
- Defined quality standards and coached the wider team on QA best practices.
- Led QA delivery for Dash Enterprise 5.0, 5.1, and 5.2.
- Created an internal tool that reduced environment seeding time by over 40%.
- Set up Cypress automation in CI, with automated test reports sent directly to Slack.
- Reduced supported configurations from 21 to 14, saving approximately \$140,000 in costs.

JANUARY 2019 – JUNE 2021

QA Engineer → **Senior QA Engineer** / Apply Digital, Vancouver

Progressed from QA Engineer to Senior QA Engineer while driving test automation adoption, mentoring team members, and leading QA delivery across mobile and web projects.

- Coached 4 manual testers into QA Engineer roles through hands-on mentoring and technical guidance.
- Introduced Cypress and created easy-to-follow onboarding tutorials to accelerate automation adoption.

- Built a streamlined automated E2E setup, reducing setup time by over 20%.
- Expanded native and web mobile E2E test coverage across iOS and Android.
- Led QA delivery for an award-winning mobile game recognized with Muse and NYX awards in 2020.
- Mentored junior project managers and product owners on QA process, quality standards, and delivery expectations.

Nov 2015 – December 2018

QA Specialist → QA Engineer / Cumul8, Vancouver

Progressed from QA Specialist to QA Engineer while building QA processes, improving release workflows, and strengthening test automation and CI infrastructure.

- Created QA testing processes from scratch, including test plans and test strategies for both mobile and web.
- Scheduled releases and helped set up testing, staging, and production environments.
- Advocated for accurate, simulated customer data to improve production-like testing.
- Introduced and set up Cypress automation, running tests automatically in CI.
- Coordinated QA delivery with an offshore team.
- Rebuilt the front-end CI builder, making it 15% faster and easier to maintain.

MARCH 2015 – NOV 2015

QA Dev Support / United Front Games, Vancouver

- Owned testing and patch deployment together with a team of 8 testers.
- Identified reliable ways to reproduce production-related issues using a dedicated development environment.
- Created documentation and onboarding tutorials to help new hires ramp up quickly.

JAN 2015 – FEB 2015

Quality Assurance / Cumul8, Vancouver

- Implemented the initial QA foundation, including test plans and test strategies.
- Tested web and mobile applications across key product flows.
- Taught the wider team how to follow the testing process and improve release quality.

Education

JANUARY 2013 – DECEMBER 2013

Entertainment Business Management / VFS, Vancouver

An intensive course where I was taught about how the business side works within the entertainment industry, everything from being a great leader, a producer, event manager, and a project manager. Worked on several projects to learn hands on experience with being a manager.

Courses / Certifications
